

Gloucestershire Local Involvement Network (LINK)

Governance Framework

The system by which the LINK is controlled

The Stewardship Board may set up task groups or sub groups. This will help the LINK to function, begin a programme of work and monitor special services.

The Stewardship Board will agree the structure of how each group will work together. This is called the Terms of Reference.

The Chairperson for each group will be chosen in agreement with the Stewardship Board.

Task Groups and Sub groups must follow the system by which the LINK is controlled. This is called the Governance Framework.

They must as well follow the Code of Conduct, which says what acceptable behaviour is when dealing with different situations.

All groups are responsible to report their activities to the Board. This should be done through the Chair person of the group.

The level of support which may be needed by each group will be agreed by the Stewardship Board and the Host.
